DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group II in Paper No. 1003 is acknowledged. The traversal is on the ground(s) that "Method claim 7 is directed to a method for supplying coating products". This is not found persuasive because the apparatus could be used to supply cleaning products.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claim 7 is rejected under 35 U.S.C. 102(a) as being anticipated by Brown et al. Figures 1 and 2 of the reference disclose supplying coating material from a tank, figure 2, "2" to a second tank, figure 2, "2a" or "14" to an atomizer "4". It is the examiner's opinion that applicants claim 7 is anticipated by the reference method.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1762

Claims 8-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brown et al for the same reasons as urged above. It is the examiner's opinion that the limitations of these dependent claims are conventional and do not render these claims unobvious.
